Web & DevOps: Eleventy, Astro, Bootstrap, Decap/Sveltia CMS, Cloudflare, Vercel, Netlify, GitHub, Resend, JAMstack, CI/CD pipelines, WCAG accessibility, MySQL

PROJECTS

JAMstack Website Redesign — Local Counseling Practice

Capstone Project // Central Virginia Community College // 2026

- Led architecture, design, and development of a full JAMstack site (Eleventy, Bootstrap, Cloudflare, Sveltia CMS, Resend) for a live local client.
- Built a headless CMS with 15+ modular content blocks — non-technical staff can manage all site content without touching code.
- Implemented per-counselor contact form routing with Cloudflare Turnstile spam filtering and a GitHub-based CI/CD publishing pipeline.
- Delivered a WCAG-accessible, brand-aligned platform at zero hosting cost — scalable, blog-ready, and built for long-term maintainability.

EXPERIENCE

Front Desk Coordinator — Student Services

Central Virginia Community College // Lynchburg, VA | August 2025 – February 2026

- One of a few contacts at the Student Services main desk — triaging walk-ins, scheduling counselor and College Navigator appointments, and supporting prospective student intake using Navigate360 and SIS.
- Managed multi-line phones and communications via Microsoft Teams; maintained accurate student records across scheduling workflows.
- Guided prospective students through program options and connected them with appropriate advisors to support enrollment decisions.

Shift Leader / Barista

Starbucks // Lynchburg, VA | January 2022 – October 2024

- Managed shift operations — opening/closing duties, task delegation, and team coordination — for a high-volume location.
- Accountable for health, sanitation, cash-handling, and safety compliance; trained and onboarded new team members.
